About us

CHECKTOBUILD is your
Construction Digitization Partner.

We digitize your processes and construction phases through 3D visualization, data capture and automated quality analysis for your BIM projects.

We accompany you throughout the life of your project and make new construction technologies available to all users.

More than 50 partners around the world.

Innovating since 2020
Clients in Spain, USA,
Mexico, Chile and Peru

We understand you

We break down the barriers you face when digitizing your processes:

1

Difficulty seeing real benefits to using BIM?

Our Project phasing Inspections offer true returns.

2

Can't justify High costs Reality Capture devices?

Our services give you access to the best technology.

We provide the tools and expertise to achieve accuracy.

3

Hard to find highly technical software with qualified staff? Local partners are experts in their fields.

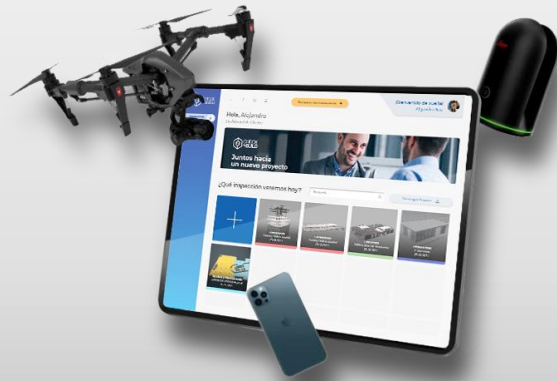

4

Impossible to handle all the data?

CHECKTOBUILD stores and processes to allow you to Visualize and Make Decisions.

Digitization “AS A SERVICE”

The Reality Capture Services
Franchise to command

Online 3D visualization & storage of
BIM models and Point Clouds

Web platform for automatic
analysis in the AEC sector

Reality Capture at your fingertips

CHECKTOBUILD offers Reality Capture “as a Service”. A multi-brand on-demand solution.

Reality Capture plus value added services that include: Scan to BIM, georeferencing, point cloud post-processing. Adapted to you. The best technology attached to your service: [C2BViewer](#), [C2BPlatform](#).

Building laser scanning / Industrial laser scanning

Scan to BIM / 2D plans

Your 3D web viewer on site

Get measurements and immersive visualization of 3D models and 2D drawings in your web browser, for any device and without limit of users. All your files store and easily shared with your stakeholders. Automatic conversion from BIM to CAD drawings (DXF). What to see? BIM (IFC format) or point clouds (E57, PLY, XYZ, LAS/LAZ).

C2B VIEWER

- Upload and view any BIM model, point cloud or CAD.
- Take measurements easily (distance, volume, angles)
- Convert 3D models to 2D drawings automatically

FREE 

Go PREMIUM

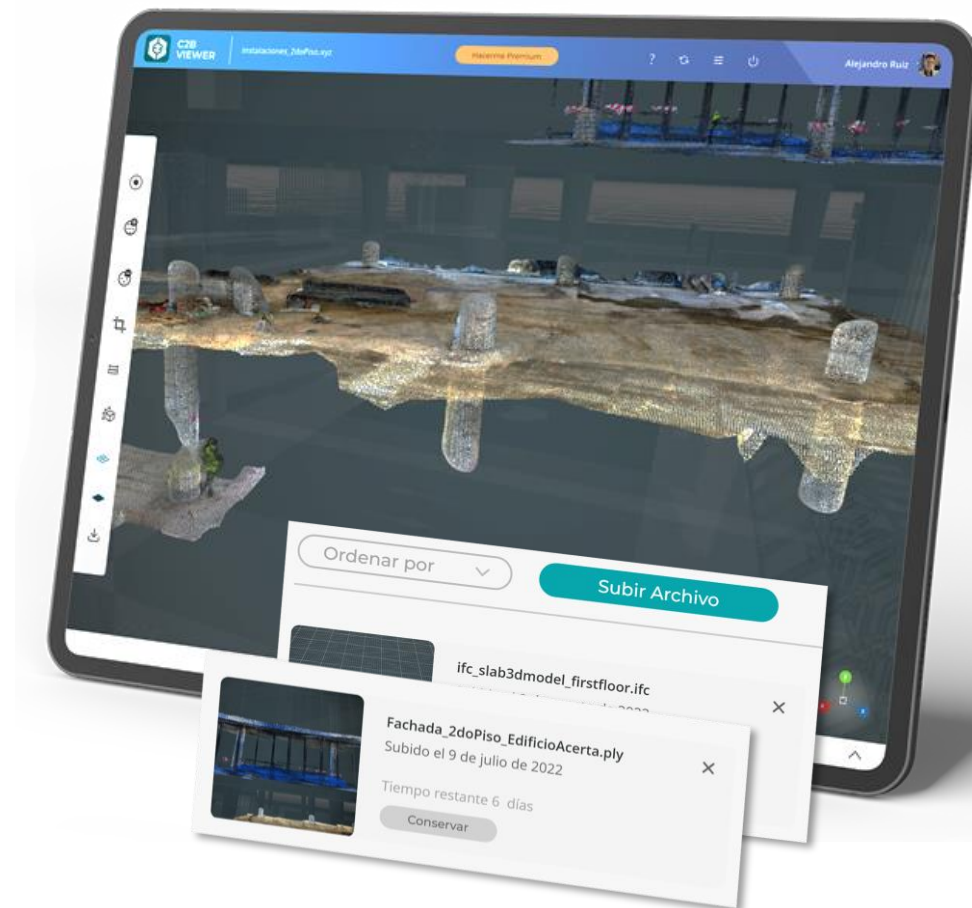

Also add to your C2B VIEWER:

- Simultaneous (up to 3 devices per user)
- Unlimited use and storage
- Work heavy files (up to 20GB)
- Personalized support

\$49.90
No obligation

*Services optimized
for all devices*
